Campaign Naming Opportunities

Create a lasting legacy for the 10,000 students we seek to educate by 2031 and the generations of students that will be impacted for years to come.

**Some spaces are limited and availability is dependent on the design of the building and grounds*

CLASSROOM FOUNDER

\$5,000,000

SCHOOL CAMPUS

All the magic that happens in a given hour, day or year happens within the walls of our school buildings. Our teachers strive to make our buildings warm, safe and inviting—a place kids run to each day! This leadership gift will anchor our campaign and ensure the education of thousands of students for years to come. Naming the campus will include signage on the front entrance of the campus.

\$2,000,000

ACADEMIC SCHOOL WING

Sponsor an entire wing or floor of a school and underwrite the central learning going on at each grade level. With the addition of a school wing, we are able to educate even more children in one of our existing buildings.

ATHLETIC FIELD

Outdoor green spaces are critical for students to exercise and play outside in a safe environment. Students can enjoy outdoor gym class, practice team sports, or host home games.

\$1,000,000

SCHOOL ENTRANCE

The entrance to each school is the energetic hub for the work we do at each school and makes the first impression all students, families, staff, and visitors have of our facility.

SCHOOL GYMNASIUM

Our gymnasiums allow hundreds of students and families to gather together for sporting competitions and school events. Support our athletics curriculum, a critical part of student development, and provide an in-door play space where school culture will thrive with pep rallies and celebrations.

\$500,000

SCHOOL CAFETERIA

Support our students by sponsoring our full service cafeterias and providing a well-balanced nutrition to our students. Our cafeterias are multipurpose spaces that are dedicated to student learning, experimentation and socialization. These areas can also be opened to the community to host events, parent meetings and other community initiatives.

SCIENCE/ TECHNOLOGY LAB

These multipurpose spaces are dedicated to student learning and experimentation while ensuring our kids have access to the latest technology-based learning opportunities. Help students compete with their peers around the world in science through a state of the art science lab. Support students as they learn computer skills that will be invaluable to their academic learning and future career.

\$250,000

TOT LOT PLAYGROUND

Outdoor play spaces for our youngest minds are critical for their development. Sponsor our Tot Lot and provide a safe environment where they can explore their surroundings and physical world.

SCHOOL GARDEN

Our school garden helps students learn about nutrition and health. The garden will provide fresh produce for our full service cafeteria kitchen as well as an outdoor space for learning during science class.

\$100,000

GRADE LEVEL FOUNDER

Support an entire grade of new KIPP students through this transformative gift. From their first day with us, our students are instilled with a deep sense of pride for their grade and their peers through morning community sessions and grade-level cheers.

\$50,000

BEYOND Z CLASSROOM FOUNDER

Support a Beyond Z classroom. Beyond Z classrooms are multi-use classrooms used for science, arts, music, technology, dance, etc. At KIPP, we believe in providing students with a well-rounded, world-class education, and our Beyond Z classes allow each and every student to thrive in their own unique way.

\$25,000

CLASSROOM FOUNDER

Support a new classroom including all of the essential materials that are critical to student learning and success. Beyond academics, KIPP classrooms are welcoming and happy places for our students, where they feel safe and loved.
