KIPP Miami Technical High School is a tuition-free, specialized public high school dedicated to equipping students with the knowledge, skills, and experiences necessary to thrive in college and careers.

At our high school, every student is equipped to begin their next chapter with confidence. College begins early at KIPP Miami Tech thanks to our unique location on the Miami Dade College North Campus. Students can take real college classes and earn up to a year's worth of credits while still in high school. Through hands-on career pathways, they gain industry certifications and real-world experience to prepare for success after graduation. In our small, close-knit community, every student is known, celebrated, and supported to grow into a confident, future-ready leader.

WE CAN'T WAIT TO SEE YOU NEXT YEAR!

GUIDANCE THAT
GROWS WITH YOU.

At KIPP Miami Technical High School, it's our mission that each of our students are prepared to be successful from high school to college to career. Being part of our community means world-class college and career exposure, starting in the 9th grade.

WE'VE GOT YOUR BACK IN HIGH SCHOOL WITH:

✓ **CAREER & COLLEGE READINESS SEMINARS**
Discover your passions and chart your course toward achieving your goals in our College and Career Readiness seminars, starting freshmen year.

✓ **COLLEGE & CAREER EVENTS**
Attend college fairs, visit college campuses, and join our career networking events to explore different pathways and network.

✓ **PERSONALIZED COUNSELING**
Our KIPP Forward counselors will support you with FAFSA completion, identifying scholarships, financial aid planning, fine-tuning your college applications, and more.

After you throw your cap at graduation, we're still here for you. In fact, the post-graduation support we offer is valued at over $6,000.

"Students who attended both KIPP middle and high school were nearly **TWICE AS LIKELY** to persist and graduate from a four-year college than those who did not."

ABOUT THE CAREER ACADEMIES

Students choose from three career academies in ninth grade—Business, Commercial & Digital Art, or Tech—and can graduate with both college credit and industry certificates. Each inspired by the legacy of an incredible changemaker of color with connections to Miami, these academies teach students to exemplify leadership, creativity, and innovation.

The career academy approach ensures learners build real-world skills through hands-on exploration of their passions and opportunities to learn from professionals in the field.

CHOOSE *YOUR* ACADEMY

THE COMMERCIAL & DIGITAL ARTS ACADEMY

Voice. Vision. Creativity.

Students use design to tell stories, challenge systems, and make meaningful visual impact in their communities and beyond. Inspired by the bold, expressive work of Jean-Michel Basquiat, this academy empowers students to develop their voice, sharpen their vision, and unleash their creativity through digital and commercial art.

Plan to participate in the many competitions and opportunities for exposure through *SkillsUSA!*

Potential Careers: Graphic Designer Filmmaker/Video Editor • UX/UI Designer

THE BUSINESS ACADEMY

Heart. Hustle. Leadership.

With roots in entrepreneurship and financial literacy, students learn to launch ideas, grow ventures, and lead with purpose. They'll develop the heart to serve, the hustle to build, and the leadership to inspire. Inspired by the entrepreneurial journey of Felecia Hatcher, this academy equips students to turn their passion into impact.

Plan to connect with *Future Business Leaders of America*, the largest business career & technical student organization!

Potential Careers: Entrepreneur • Financial Analyst • Nonprofit Leader

THE TECH ACADEMY (IT/AI)

Problem-solving. Curiosity. Innovation.

Through computer science, artificial intelligence, and hands-on tech exploration, this academy cultivates curiosity, sharpens problem-solving skills, and fuels innovation. Inspired by the work of Kimberly Bryant, students learn to design inclusive solutions, challenge the status quo, and build the future with code, logic, and imagination.

Plan to gain invaluable leadership experience with *Technology Students Association* through the many competitions and showcases!

Potential Careers: App Developer • Cybersecurity Analyst • Robotics Engineer
